

Summer Activities for Executive Function Growth

NON-STRUCTURED PLAY ALLOWS FOR
DEVELOPMENT OF MANY DIFFERENT SKILLS

These all require visualizing the end
result, planning, problem solving, and
managing frustration

BUILD A FORT Inside or outside

Let kids design and build
this on their own or by
directing you.

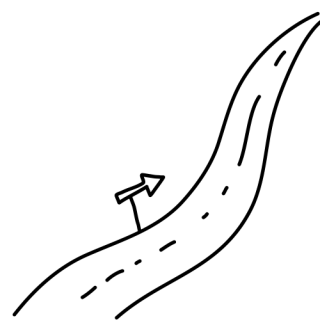

HAVE A YARD SALE

Have kids go through their
old toys and clothes to sell
them. Have them use the
money they made for a
goal they set.

PLAN A DAY TRIP Stay local

Do a staycation and have
kids plan a day in your
area. Have them make a
schedule, give them a
dollar amount that can be
spent, then have them
make a brochure for the
day.

PLAY GAMES

Set aside time weekly
to play board games
or cards. No
technology around,
just game time with
friends and family.
